

## PRODUCT INFORMATION

### MFT table connector

**Item No. 484 455 (pack of 1)**

2 are needed to connect 2 tables together

#### PRODUCT DESCRIPTION:

The MFT table connector can be used to connect 2 or more Multi-Function Tables to get a larger work surface. These strong metal bars with 4 set screws slide into the "T" track spanning the tables to be joined as shown below.

#### SUGGESTED USAGE:

For big jobs where a large surface with very versatile clamping options is needed. MFT's can also be joined together and be used with a long guide rail (e.g. FS 1900/2) to increase the cutting capacity of the MFT.

#### BENEFITS:

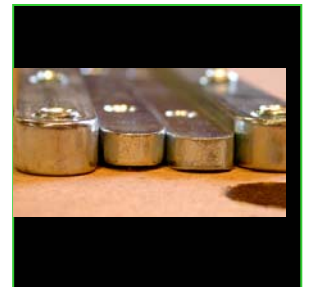

- Large work surface that supports big work pieces – secure working environment can enhance working speed and results.
- Increases cutting capacity of single MFT's and makes them more versatile – better use of existing equipment
- Sturdy construction and high quality materials – long product lifetime saves on replacement costs.

#### RELATED PRODUCTS:

- MFT 1080 (item no. 492 652): Large, strong, sturdy and portable work table for shop-level precision on the jobsite.
- MFT 800 (item no. 492 651): Smaller version of the MFT 1080, but with all of the same features.
- Replacement top (item no. 489 396 for MFT 1080; item no. 486 565 for MFT 800)

The MFT connectors fit the "T" slots around the perimeter of the MFT

The MFT connectors (on the outside) are thicker than the guide rail connectors

Two 1080 MFT's joined together side by side to form a large work surface

Two 1080 MFT's joined together end to end to form a long work surface
